CHARGE TYPE

(This table contains U.S., District of Columbia and Territorial Code Citations)

CAUSE OF ACTION

The codes below are intended to describe the most common civil case types that are handled in the U. S. Attorney's Offices.

There are two types of Civil Cause of Action Codes: general codes and specific codes. The general codes are two letters; the four-letter codes listed below them are more specific. (The EXCEPTION to this rule is EAJA.) For example, TO should be used for a Tort case that is not covered by any of the specific Tort codes.

AF Asset Forfeiture/Money Laundering/Structuring

(This code encompasses all non-drug related civil asset forfeiture cases and matters, as well as money laundering/structuring cases and matters, including asset forfeiture seizure warrants and proceedings for the return of seized asset forfeiture property or evidence. Other types of warrants or proceedings for the return of seized property, not related to asset forfeiture, should be opened using the code for subpoena/summons/warrants ["SU"] below.)

AFCF - Asset Forfeiture - Corporate Fraud. Defined as cases or matters involving:

(1) Falsification of corporate financial information (including, for example, false/fraudulent accounting entries, bogus trades and other transactions designed to artificially inflate revenue, fraudulently overstating assets, earnings and profits or understating/concealing liabilities and losses, and false transactions designed to evade regulatory oversight);

(2) Self-dealing by corporate insiders (including, for example, insider trading, kickbacks, misuse of corporate property for personal gain, and individual tax violations related to any such self-dealing);

(3) Fraud in connection with an otherwise legitimately-operated mutual or hedge fund (including, for example, late trading, certain market-timing schemes, falsification of net asset values, and other fraudulent or abusive trading practices by, within, or involving a mutual or hedge fund); and

(4) Obstruction of justice, perjury, witness tampering, or other obstructive behavior relating to any of the foregoing categories.

AFDR - Drug Related Asset Forfeiture/Money Laundering/Structuring

(This code encompasses all drug related civil asset forfeiture cases and matters, as well as money laundering/structuring cases and matters, including asset forfeiture seizure warrants and proceedings for the return of seized asset forfeiture property. Other types of warrants or

Appendix A – LIONS Code List

proceedings for the return of seized property, not related to asset forfeiture, should be opened using the code for subpoena/summons/warrants [“SU”] below.)

AM Administrative Matter

(This code is to be used only for non-case related matters, such as commenting upon proposed legislation, citizen correspondence, etc. If the matter evolves into an actual case, the matter should be closed with the closing code “NW,” a new court history added with the appropriate court code, and a more specific cause of action code selected. It should be noted that the Department does not count matters assigned this category code when tabulating its statistics.)

AD Admiralty

(This code is to be used for all claims, whether for personal injury or property damage, involving seamen, ships, ships’ cargo, repair or liens, or other maritime property and aids to navigation. This code should not be used for civil penalty actions [cf. “CV”] or environment-related maritime resources actions [cf. “EN”].)

AN Antitrust

(This code is to be used for all cases or matters arising under the antitrust laws.)

AP Review of Administrative Agency Action

(This code is to be used primarily for claims filed under the Administrative Procedures Act [APA], but can include other actions against the government where the opposing party is challenging an agency policy or regulation, or the method of application of a policy or regulation as, for example, being unconstitutional. Note that there is a specific code for actions attacking the constitutionality of a statute [cf. “CN”]. The “AP” code should not be used where a more specific code would apply; for example, a Social Security case [cf. “SS”], a FOIA or reverse FOIA case [cf. “FO”], a Privacy Act case [cf. “PV”], or a prisoner case [cf. “PC”].)

BK Bankruptcy

(The general code of “BK” should only be used for bankruptcy actions that are not brought under, or related to, proceedings under Chapters 7, 11, 12, or 13, or Adversary Proceedings, for which more specific subcategory codes are listed below.)

BKAD - Bankruptcy--Adversary Proceeding

BKBE - Bankruptcy--Chapter 11

BKBF - Bankruptcy--Chapter 12

BKBS - Bankruptcy--Chapter 7

BKBT - Bankruptcy--Chapter 13

Appendix A – LIONS Code List

CN Constitutionality of Statute

(This code is to be used when the main thrust of an action is to challenge the constitutionality of a statute. It does not apply where the attack is upon an agency policy or regulation [cf. “AP” above], or where a declaration of unconstitutionality is ancillary to the primary relief sought, in which case a more specific code should be utilized.)

CO Commercial Litigation/General Claims

(The general category code “CO” is intended to encompass a broad range of litigation, whether “affirmative” or “defensive” in nature, that primarily involves claims by or against the government for money. Two areas of commercial litigation have separate subcategory codes, however: foreclosures/lien litigation and loan litigation [see below]. The general code of “CO” should be used unless one of the more specific subcategory codes listed below applies. Specific actions encompassed by the general category code [“CO”] include, for example, actions on notes, government contract litigation, Miller Act and bid protest litigation, actions to exercise rights of redemption, litigation where the government is the stakeholder for proceeds of government insurance policies, international trade and intellectual property [patent, copyright, trademark] litigation and other commercial litigation. This category does not, however, include civil penalties [cf. “CV”], civil fraud actions [cf. “FR”], garnishments [“GA”], or other actions where more specific codes would apply.)

There is a number of additional collection cause of action codes in the “CO” series. Although they are not LIONS codes, they are still active collection codes used only by FLU personnel in TALON to properly route money collected.

Loan Litigation

COHE - Recovery of Health Education Assistance Loans (HEAL)

COHS - Recovery of National Health Service Corps Scholarships (NHSC)

COSL - Student Loan Defaults

Lien Litigation

COLB - Bogus Liens

(Actions to cancel or expunge bogus liens filed against Government officials.)

COLN - 28 U.S.C. § 2410 Litigation

(This encompasses all litigation brought under 28 U.S.C. 2410, whether lodged in state or federal court, including state condemnation proceedings in which a government lien is involved, and regardless of whether the agency is the IRS or some other agency such as the VA, SBA, HUD, etc.)

COMC - Foreclosures/Liens—U.S. Plaintiff

CR Civil Rights

Appendix A – LIONS Code List

(This category is intended to encompass civil rights actions except employment discrimination actions in which the government is named as the defendant, which should continue to be opened under the code “ED.” Civil rights actions may be both “affirmative” and “defensive” in nature, although the majority of such actions are affirmatively brought by the government. The general category code “CR” should only be used if a more specific, subcategory code listed below does not apply.)

CRAC - Civil Rights–Access to Clinic Entrances

CRAD - Civil Rights–Americans With Disabilities Act

CREM - Civil Rights–Employment Discrimination (Affirmative Only)

CRFC - Civil Rights–Fair Credit

CRIP - Civil Rights–Rights of Institutionalized Persons

CRTH - Civil Rights–Fair Housing

CRTI - Civil Rights–School Desegregation

CRVR - Civil Rights–Voting Rights

CT Contempt

CV Civil Penalty

(This category covers all referrals made by an agency where the primary relief sought is the recovery or enforcement of a civil penalty. The FLU codes “CVAM” and “CVMS,” although eliminated as LIONS codes, are still active collections codes to be used only by FLU personnel in TALON to properly route money collected.)

DI Discovery (Pre-Complaint)

(This code is intended to capture motions to perpetuate testimony in anticipation of an upcoming civil action.)

EAJA Equal Access to Justice Act

(This code applies to requests for attorney fees brought by or against the government under 28 U.S.C. § 2412.)

ED Employment Litigation Against the Government

(This code covers employment discrimination actions brought against the government, regardless of the underlying statute or legal theory. It includes adverse action, back pay and grievance issues brought by government employees. Affirmative discrimination actions brought by the government are opened under the civil rights code “CREM” above.)

Appendix A – LIONS Code List

EG Energy

(This code is intended to encompass a broad range of energy related litigation, whether affirmative or defensive in nature, including actions under acts relating to nuclear waste policy, public utilities regulatory policy, uranium mills, power plants, etc.)

EN Environmental

(The general category code “EN” should only be used if a more specific, subcategory code listed below does not apply.) *The FLU code “ENDS” (Natural Resource Damages, 3% Exempt) is not a LIONS code; however, it is a code to be aware of when cases are closed. This code is used by FLU to properly route money collected in environmental cases. “ENDS” is used by FLU for any recoveries from actions resulting from Section 311 of the Clean Water Act, Section 1006 of the Oil Pollution Act, and Section 107(f) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA.)*

ENCA - Clean Air Act

(This code includes both FOIA and “reverse” FOIA cases or matters.)

FR Fraud

(The general category code “FR” should be used for all civil fraud actions, including actions under anti-kickback statutes and the False Claims Act, unless it is (1) a financial institution fraud action, in which case it should be opened using the subcode “FRFI,” (2) a health care fraud action, in which case it should be opened using “FRHC,” (3) a Department of Defense Procurement Fraud

Appendix A – LIONS Code List

action, in which case the subcode “FRDP” should be used; or (4) a Procurement Fraud action (other than Department of Defense), in which the subcode “FRPO” should be used.

FRDP - Defense Procurement Fraud

(This subcode should be used in civil actions involving Department of Defense contractor procurement fraud regardless of the investigating agency.)

FRFI - Financial Institution Fraud

(This subcode should be used in any action involving financial institution fraud and/or penalties involving financial institutions, whether affirmative or defensive.)

FRHC - Health Care Fraud

(The FLU codes “FRMZ” (Medicaid Fraud, 3% Exempt) and “FRTR” (Health Care Fraud money to be deposited to the Hospital Trust Fund (Medicare) are not LIONS codes; however, they are codes to be aware of when cases are closed. These codes are used by FLU to properly route money collected in health care fraud cases.)

FRPO - Other Procurement Fraud

(This subcode should be used in civil actions involving contractor procurement fraud (other than Department of Defense procurement fraud) regardless of the investigating agency.)

GA Garnishment

(This code is intended to include actions brought to garnish the wages of federal employees, including those for child support payments.)

IM Immigration

(This code should be used in all actions relating to detention, deportation or status under the immigration laws, whether the action is brought as an application for writ of habeas corpus, a preliminary injunction, or other proceeding, regardless whether the agency is INS or BOP.)

IV Intervention

(This code is utilized in those limited situations where the government must intervene to stay ongoing litigation not involving the government that might impact upon an ongoing criminal proceeding or investigation.)

JU Judges and Court Personnel (Actions Against)

(This code is utilized in those situations where the government is called upon to represent a court or court personnel that are not otherwise encompassed by another, more specific code, such as a Bivens action [“TOBI”], or a prisoner code [“PC”].)

LB Labor

(This code is intended to encompass a wide range of labor litigation, both affirmative and defensive, including actions involving the Fair Labor Standards Act, Black Lung and election litigation. Actions involving veterans’ re-employment rights should be opened utilizing the specific subcategory code “LBVR” below.) *The FLU code “LBBL” (Black Lung) is no longer a LIONS*

Appendix A – LIONS Code List

code; however, it is a code to be aware of when cases are closed. This code is used by FLU to properly route money collected in black lung cases.)

LBVR - Veterans Re-employment Rights

LD Land/Real Property

(This code applies to both affirmative and defensive litigation, whether in state or federal court. The general category code “LD” should be used for actions involving real property, for which another more specific code does not apply. This code should not be used for any action brought under 28 U.S.C. § 2410, as to which COLN is the appropriate code, or for condemnation actions brought by the United States, as to which “LDCN” applies, or for affirmative mortgage foreclosures, as to which “COMC” is the appropriate code to be used.)

LDCN - Condemnation

(This code is to be used only in those actions in which the United States is instituting condemnation proceedings to take real property for government use.)

MI Miscellaneous Claims Against the Government

(This category encompasses those rare actions where no other relevant category applies; for example, unintelligible pro se actions.)

NA Native American Matters

(This code encompasses a wide range of cases and matters involving Native Americans and/or tribal matters. It includes claims under the Alaska Statehood; Alaska Native Claims Settlement; Alaska Conservation; National Environmental Policy; the Indian self-determination acts and issues concerning Indian gaming; Indian rights-of-way; accounting; tribal claims; damages; descent and distribution; Section 2410 condemnation; forest mismanagement; government loans to Indians; mineral lands/leases; statute of limitations; possession; quiet title; restricted funds; self-determination; taxation; jurisdiction; Indian water rights; Indian land titles; stolen artifacts; Indian trust funds; land management; and Indian resources.)

PC Post-Conviction/Prisoner Litigation

(The general code “PC” is intended to encompass the majority of post-conviction actions and/or prisoner actions other than actions under 28 U.S.C. § 2255, which are opened under the more specific subcategory code “PCST” below. For example, this category code extends to coram nobis actions, actions for expungement of records, parole commission actions, and applications for writ of habeas corpus under 28 U.S.C. § 2241. However, this section should not be used for prisoner challenges to immigration action, for which the code “immigration” [“IM”] should be used, nor for actions by prisoners where the main thrust of the action is the recovery of money damages under a tort or Bivens theory, for which the tort codes [“TO”] would be most appropriate.)

PCST - 28 U.S.C. § 2255 Actions Attacking the Imposition of a Sentence

PCDN – 18 USC 3600 DNA Testing

PCSM – 18 USC 3582c Modification of an imposed term of imprisonment

Appendix A – LIONS Code List

PO Postal Service

(This category code includes cases and matters, whether affirmative or defensive, involving cease and desist orders, detention of mail, false advertising, pornography through the mails, etc. This code should not be used for actions such as torts or employment discrimination where the main thrust of the action places it under a more relevant category code and it is only incidental that the cognizant agency is the Postal Service.)

PV Privacy Act

(This category code is for actions brought under the Privacy Act. Actions sounding in tort under a theory of invasion of privacy are more appropriately opened under a tort code ["TO"] below.)

SE Securities

(This category code is for actions brought under the securities laws, which are usually handled by the SEC.)

SS Social Security/Medicare/Medicaid Claims and Appeals

(The general category code "SS" is only to be used when one of the more specific subcategory codes below does not apply. Actions for Medicare/Medicaid payments involving actions under the Medical Care Recovery Act are more appropriately opened under the code "TOMC" below. Health care fraud claims involving Medicare/Medicaid should be opened under the "fraud" codes above.)

SSDA - Social Security Disability and Supplemental Security Income Appeals

SSMD - Provider Litigation

(This subcategory code involves both defensive and affirmative actions involving claims related to Medicare/Medicaid provider reimbursement. *It does not include health care fraud actions which should be coded "FRHC."*)

SU Subpoena/Summons/Warrants

(This section encompasses all cases or matters, whether affirmative or defensive in nature, to enforce or quash summonses or subpoenas, or involving applications for writs of entry or administrative search warrants or other warrants, and proceedings for the return of seized property or evidence not related to asset forfeiture. This category should not be used for asset forfeiture, for which "AF" or "AFDR" should be used.)

TO Tort

(Use the general category code "TO" if a more specific subcategory code listed below does not apply. This category extends to the vast majority of actions in which the legal theory involves some tort such as the usual negligence action involving motor vehicle accidents, slip and falls, drownings, and the myriad of other miscellaneous negligence actions brought against the government other than those which have their own specific subcode, e.g., medical malpractice, air crash etc.)

TOAC - Air Crash

Appendix A – LIONS Code List

TOBI - Bivens

(This subcode extends to all actions where the government is providing representation to persons sued in their individual capacity for money damages.)

TOMC - Medical Care Recovery

TOMM - Medical Malpractice

TR Civil Matters/Cases Arising Out of Terrorist Attacks on the United States

(This code is to be used for any civil matters or cases arising from or related to terrorist attacks on the United States.)

TX Tax

(The general code "TX" is intended to encompass the majority of tax related cases or matters, other than actions seeking a tax refund, which are opened under the more specific subcategory code "TXRE" below. For example, this category code extends to actions brought by the government to collect taxes, wrongful levy actions, and other tax litigation, whether affirmative or defensive in nature.)

TXRE - Refund to Taxpayer

CW	Closed–Necessary Action Taken
----	-------------------------------

Comments: For use when all necessary action on a matter has been completed and a more specific code does not apply. For example, if a matter is settled, use the appropriate settlement code, i.e., “SA” or “SB.”

DE	Declined
----	----------

This code is to be used if a determination is made to decline pursuing an affirmative referral.

NW	New Filing
----	------------

Comments: This is a disposition code that is largely administrative in nature. It is used by docketing personnel when a matter is closed by the filing of a court action.

OE	Opened in Error/Office Error
----	------------------------------

Comments: Self-explanatory.

PC	Post-Disposition Action Completed
----	-----------------------------------

Comments: This is a disposition code that is largely administrative in nature. It is used by docketing personnel chiefly in asset forfeiture matters to permit the removal of cases from an attorney’s active case list to permit monitoring of the case pending sale of assets.

SA	Settlement (ADR Utilized)
----	---------------------------

Comments: This closing code is intended to capture all civil matters that are resolved by settlement using alternative dispute resolution (ADR). This is to be contrasted with matters that are settled without the use of ADR [see closing code “SB” below].

SB Settlement (Without Utilization of ADR)

Comments: See comments under “SA” above.

TR Transferred from District

Comments: This closing code is to be utilized when a file must be closed because the case has been transferred out of the district.

Civil Cases

Please Note: Whenever any case is closed as the result of a settlement, court judgment, decision, or order where the outcome is favorable to the government and there is money recovered or to be recovered on behalf of the United States, the case should be immediately referred to FLU. When a referral is made to FLU, a careful review of the Civil Cause of Action codes should be done to ensure that proper Collections Codes are communicated to the FLU staff to ensure proper routing of recoveries. No additional entry of codes is required in LIONS.

BA Bankruptcy USAO Work Completed

Comments: This closing code is intended to encompass a broad range of bankruptcy resolutions, and should be used, for example, when a bankruptcy plan has been confirmed, the bankruptcy case has been dismissed, a chapter 7 discharge has been entered or the Government’s priority has been determined, or when a proof of claim has been filed and no further action is contemplated. This code should not be used in an adversary proceeding where one of the more specific closing codes listed below is appropriate; for example, one of the “judgment/order/decision” or “settlement” codes.

CS Consolidated by Court

Comments: For use only when a case is consolidated with other case(s) under one court number. When cases are consolidated but retain their own separate court numbers, it is inappropriate to close out a case on the LIONS system because it has the potential for later severance and/or separate disposition under another closing code.

CW Closed–Necessary Action Taken

Comments: For use when all necessary action in the litigation has been completed without the entry of a court judgment, order, or decision; for example, if a subpoena for a federal agent is resolved without need of a court order quashing the subpoena, or a taxpayer voluntarily complies with an IRS subpoena in a summons prior to a court order. If the case is terminated short of trial by entry of a court judgment, order, or decision, the appropriate closing code to be used is “JU” [see below]. If the case is settled, the appropriate codes to use are “SA” or “SB” [see below].

DS Disclaimer of Interest

Comments: To be used where a pleading disclaiming an interest in litigation is filed; for example, in a Section 2410 tax lien case, bankruptcy case, or other case where the Government disclaims having an interest in the litigation.

Appendix A – LIONS Code List

- JJ Judgment/Order/Decision for U.S. (Jury Trial)
- Comments: For purposes of codes “JJ,” “JX,” “JT,” or “JY,” “trial” implies that the hearing is evidentiary; that is, testimonial evidence is taken.
- JX Judgment/Order/Decision for U.S. (Non-jury Trial)
- Comments: See comments made under “JJ” above.
- JU Judgment/Order/Decision for U.S. (No Trial)
- Comments: This closing code is intentionally very expansive, and is meant to include most cases that are resolved by a court judgment, decision, or order where the outcome is favorable to the government [where the outcome is favorable to the opposing party, the analogous, appropriate closing code is “JO”]. Case dispositions that would normally fall within this closing code include consent judgments, default judgments, summary judgments and orders granting contested motions to dismiss, and remand orders in social security cases after a decision on the merits. This code does not include cases that are voluntarily dismissed [see closing code “VD” below] or cases which are dismissed pursuant to settlement [see closing codes “SA” and “SB” below], such as where the court enters an order dismissing a case on the parties’ stipulation or announcement of settlement.
- JT Judgment/Order/Decision for Opposing Party (Jury Trial)
- Comments: See comments under “JJ” above.
- JY Judgment/Order/Decision for Opposing Party (Non-jury Trial)
- Comments: See comments under “JJ” above.
- JO Judgment/Order/Decision for Opposing Party (No Trial)
- Comments: See comments under “JU” above. This code is not to be used for voluntary remands in Social Security cases. See “VR.”
- NW New Filing/New Court
- Comments: This is a disposition code that is largely administrative in nature. It is used by docketing personnel when a case is closed by one court and lodged in another; for example, when a case is removed from state court to federal district court, or a case is referred from district court to bankruptcy court, or the district court withdraws the reference from the bankruptcy court.
- OE Opened in Error/Office Error
- Comments: Self-explanatory.
- PC Post-Disposition Action Completed
- Comments: This is a disposition code that is largely administrative in nature and can be used to close out any post disposition action. For example, if you close an asset forfeiture case at the time of judgment, but want to monitor the case through the sale of the property, you can reactivate the case with a post disposition court history and then ultimately close it with “PC.”

Appendix A – LIONS Code List

SA Settlement (ADR Utilized)

Comments: This closing code is intended to capture all civil cases that are resolved by settlement using alternative dispute resolution (ADR). This is to be contrasted with cases that are settled without the use of ADR [see closing code “SB” below].

SB Settlement (Without Utilization of ADR)

Comments: See comments made under “SA” above.

TR Transferred from District

Comments: This closing code is to be utilized when a file must be closed because the case has been transferred out of the district.

VD Voluntary Dismissal

Comments: This closing code is to be utilized when a party obtains dismissal of a case without a court ruling on the merits. It should not be used when a case is voluntarily dismissed pursuant to a settlement [cf. codes “SA” and “SB” above].

VR Voluntary Social Security Remand

This code is to be used when a Social Security case is remanded upon motion or consent of the United States (sentence 4 and 6). It is not to be used when a court remands after considering the merits in which instance “JO” should be used.

Any case coded under this section will involve potential or actual exploitation of weaknesses in infrastructure or systems that affect our national security. Other Criminal Prosecutions

- 090 Include in this category everything which does not fall into one of the above categories.

Violent Crime

- 053 Firearms/Triggerlock.

A firearms case is one in which a defendant was involved in the illegal use, possession, sale, receipt, transportation, transfer, purchase, or manufacture of a firearm (or firearm accessories or ammunition).

Firearms are defined according to 18 U.S.C. 921(a)(3):

The term 'firearm' means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device.

Please be aware that, under 18 U.S.C. 921(a)(4), A destructive device includes bombs, grenades, and other explosive or incendiary devices.

- 083 Bank Robbery. May involve violations of 18 U.S.C. § 2113.
- 091 Domestic Violence. May involve violations of 18 USC 2261, 18 USC 2262, 18 USC 2261A, 18 USC 922g8, 18 USC 922g9. A domestic violence case is one that charges a violation of §§ 922(g)(8), 922(g)(9), 2261, 2261A and/or 2262. It also includes any other case that the charging AUSA designates as a domestic violence crime based upon the facts of the case. The AUSA is not limited by the statutes charged. A threatening communication indictment, charging 18 U.S.C. § 875, based upon a domestic abusers threats would properly be included in the Domestic Violence Program Category Code. Similarly, a felon in possession cases, charging 922(g)(1), charged because the defendant is a domestic abuser should be included in the newly created Domestic Violence Program Category Code. Any case that is domestic violence related - and that term is to be broadly defined - should be included.
- 092 Violent Crime in Indian Country. This code should be used for all violent crime offenses by or against Indians in Indian Country for which the United States has jurisdiction. You may have Violent Crime in Indian Country cases that include firearms offenses under Sections 922 or 924.

Appendix A – LIONS Code List

Please note that you can code the case as Violent Crime in Indian Country by entering 092 in as the first program category code, and then enter in 053–Firearms as the second or subsequent program category. This will not affect our firearms statistics because we pull firearms cases based purely on the existence of a Section 922 or 924 statute being included in the defendant charge record in LIONS.

- 093 All Other Violent Crimes. This code should be used as the first, or primary, program category code for violent crime offenses where Program Category Codes for more specific types of violent crime (i.e., 053–Firearms, 083–Bank Robbery, 091–Domestic Violence, or 092–Violent Crime in Indian Country) do not apply. Please do not use the code as the first, or primary, program category code for Terrorism or Anti-Terrorism matters or cases, Civil Rights matters or cases, Organized Crime matters or cases, or OCDETF or Non-OCDETF drug matters or cases.
